

**CENTURY DESIGN INC.**

**CE COMPLIANT**

**CD-6220/CD-6220H BLANK DRYER MODULE**

*FROM CONCEPT TO COMPLETION*

**Highlights**

- Combines with other Century Design outfeed or transfer modules to remove moisture from shafts.
- High-volume, low pressure ring compressor provides high velocity air
- Specially designed “air Knife” device raises velocity air and directs the blast to maximize moisture removal
- “H” model includes optional 10,000 watt 3-phase air stream heater, with proportional tuning controller - can raise air stream temperature to 350°F for “paint-ready” dryness
- Air knife mounts on standard positions on CD-6250, CD-6870 and other transfer and outfeed modules; heater, compressor and controls are remote mounted but are accessible from the operator side of the automated line
