

**CENTURY DESIGN INC.**

**CE COMPLIANT**

## **CD-6450 Automated Infeed Unit**

*FROM CONCEPT TO COMPLETION*

### **Highlights**

- Designed to feed parts to all of Century Designs blank and mandrel processing machines. Provides control inputs to the machine it feeds through the machine's existing foot pedal control air lines.
- Simple design. Permits installation, operation and maintenance by low-skill technicians.
- Draws its electrical and air power requirements from the machine it is feeding—no external connections required.
- Adjustable time delay to match feed rate with machine speed.
- Hopper length adjustable.
- Provisions for precision alignment of feed trough with machine work blade.
- Processing start point on shaft adjustable.
- **The relative to this machine is our MODEL CD-6450X** which uses the hopper and lift mechanism of the CD-6450, but is intended to load machines that accepts parts laterally (side loading).
