

CENTURY DESIGN INC.

CE COMPLIANT

CD-8860 Dual Separator Tank and Pump Unit

FROM CONCEPT TO COMPLETION

Highlights

- ◆ Used to filter and re-circulate water from Century Design's wet sanding, grinding and cutting machines.
- ◆ Corrosion-proof S/S construction
- ◆ Powerful 1/3 Hp pump motor with stainless steel construction
- ◆ Uses two settling tanks for filtration— no filter bags or other consumables required
- ◆ High capacity—approximately 40 hours continuous operation between sump cleanings (based on 1 M-2000 Sander)
- ◆ Sump drains provided for easy cleaning, or connection to centralized filtration system
- ◆ Connects to and is powered by the production machine it services
- ◆ Mounted on a stainless steel cart with casters for easy mobility.
