Highlights

- ◆ Extracts mandrels that require a long pulling stroke with the full pulling power exerted over the entire stroke. Parallel tubes or tubes with very little taper will require a pulling stroke equal to their own length.
- ◆ Pulling force—18,000 pounds
- ◆ Length of stroke—12 feet standard
- ◆ 5 HP geared electric drive mechanism
- ◆ Variable speed pulling stroke
- ◆ Dual pulling chains are located on either side of part centerline to produce equal pulling forces
- ◆ Adjustable mandrel support
- ◆ Will pull mandrels up to 3 inches in diameter on standard model (larger on special order)
- ◆ Drum Switch Control for pulling stroke and return stroke.
- ◆ Assortment of pulling collars included with machine.
