Fax: 858-292-4635
Email: centuryd@pacbell.net
3635 Afton Road, San Diego, CA 92123 USA

Highlights

- ◆ Used to cut sheets of prepreg and other materials to desired length and desired angle.
- ◆ Controls are simple to use and little operator skill is required
- ◆ Cuts angles to ± 60 degrees from the perpendicular axis
- ◆ Cutting accuracy: $\pm .030$ inches (up to 1 meter long) -
+/- .060 inches (over 1 meter long).
- ◆ Cutting mechanism is an air-loaded guillotine system for durability
- ◆ Cutting blade pressure is fully adjustable for extended blade life
- ◆ Cutting blades are easily exposed for easy cleaning
- ◆ Maximum speed of 2 ft. per second with automatic acceleration and deceleration
- ◆ Air jets in upper cutting blade are used to keep tacky material from adhering to blade during cutting action
- ◆ Available in material width capacities of 12, 24, 48 inches
